*Dear Hiring Manager,*

I am a Graphic & Web Design student at North Idaho College on course to graduate in the spring of 2025. My main area of focus is in branding campaigns and logo design. Since hearing about your design firm I have looked into the type of work you all do and I think I would be a great fit at **helveticka**.

My hope is that as an intern with your firm I will be able to assist in the day to day production level work as well as learn the in's and out's of the feild and refine my skills while I complete my studies.

I am fluent in Illustrator, Photoshop, and Lightroom. I also have an understanding of HTML and CSS fundamentals. In addition to my design knowledge I have extensive experience with customer interaction.
